HEREBY undertake to implement this Agreement:

CHAPTER I**ARTICLE 1****OBJECTIVES**

The fundamental objective of this Agreement shall be to strengthen the trade and economic relations and technical cooperation between the Parties through:

- (a) the promotion and expansion of the sale of goods originating in CARICOM and Colombia with particular emphasis on exports from CARICOM States in the early stages of the implementation of this Agreement;

1. A CARICOM-Colombia Joint Council on Trade, Economic and Business Cooperation (hereinafter called the Joint Council) is hereby established and shall be responsible for the administration of this Agreement.
2. The Joint Council shall consist of representatives of Colombia and CARICOM.
3. The functions of the Joint Council shall be:

 - (b) to recommend solutions to any problems which may arise in relation to the provisions of this Agreement;

- (c) to review this Agreement periodically, assess its functioning and recommend measures considered appropriate for the achievement of its objectives;
 - (d) to implement any other functions which the Parties may assign to it.
4. The decisions of the Joint council shall have the status of recommendations to the Parties.

ARTICLE 3

2. The meetings of the Joint Council shall be chaired jointly by the Parties.
3. Meetings of the Joint Council shall be held alternately in Colombia and in a Member State of CARICOM or in such other place as may be agreed by the Parties.
4. The Agenda for each meeting of the Joint Council shall be agreed on by the Parties, at least one (1) month before each meeting.
5. The Joint Council shall establish and regulate its own procedures and may create subsidiary bodies to assist it in the execution of its functions.

CHAPTER II

ARTICLE 4

TRADE LIBERALISATION

The Parties agree to promote a programme of trade liberalisation taking into account the difference in the levels of development between Colombia and CARICOM generally, and, in particular, those countries designated the Less Developed Countries (LDCs) of CARICOM.

ARTICLE 5**TREATMENT OF IMPORTS INTO
COLOMBIA FROM CARICOM**

1. Colombia agrees to grant products originating in Member States of CARICOM free access to its market by means of the implementation of programmes for the elimination of non-tariff barriers for the elimination of tariff as set out in Annex I and Annex II to this Agreement.
2. The tariff on the products listed in Annex I shall be eliminated on the entry into force of this Agreement.
3. The tariff on the products listed in Annex II shall be eliminated through three equal annual reductions commencing on the date of the entry into force of this Agreement.
4. Most Favoured Nation treatment will be applied to products listed in Annex III. This is an additional list of products chosen from CARICOM's exportable offer, which may receive preferential treatment in Colombia beginning in the fourth year after the entry into force of this Agreement, following negotiations between the Parties.
5. The Joint Council may review any request made by the Parties to modify the treatment granted to any of the items listed in Annexes XI and III to this Agreement.
6. For products other than those listed in Annexes I, II and III to this Agreement, Most Favoured Nation treatment shall be applied unless the Joint Council decides to improve the treatment.

ARTICLE 6**TREATMENT OF IMPORTS INTO CARICOM
FROM COLOMBIA**

1. The Parties agree that CARICOM shall grant Most Favoured Nation treatment in the application of the customs tariff in respect of all imports from Colombia.
2. CARICOM further undertakes that Member States of CARICOM shall not, without prior consultation with Colombia, apply any non-tariff barriers with respect to imports from Colombia beyond those currently in place or those authorised under the Treaty establishing the Caribbean Community.

3. The More Developed Countries (MDCs) of CARICOM, namely, Barbados, Guyana, Jamaica and Trinidad and Tobago, shall introduce a programme to eliminate or reduce tariffs on an agreed list of products of export interest to Colombia, commencing at the beginning of the fourth year after the entry into force of this Agreement.

4. The list of products to be offered preferential treatment by the CARICOM MDCs shall be agreed during the evaluation of the Agreement by the Joint Council in the third year after the entry into force of this Agreement. To this end, CARICOM will consider favourably the proposals by Colombia in order to bring into effect the reciprocity in this Agreement.

5. The CARICOM LDCs shall not be required to grant tariff concessions to exports of Colombia into their territories.

ARTICLE 7

TREATMENT OF USED GOODS

The reduction of duties provided for in Articles 5 and 6 of this Agreement shall not apply to used goods. For the purposes of this Agreement, used goods are defined as those which, on importation, show evidence of wear and include those goods which are irregular, imperfect or discarded from the production process, and in the case of motor vehicles, those which were produced more than one year before their importation.

ARTICLE 8

DUTIES

For the purposes of this Agreement, duties shall be understood as customs duties and any other charges of equivalent effect, whether fiscal, monetary, foreign exchange or of any other nature that affect imports. This does not include fees and charges when they represent the cost of services rendered.

ARTICLE 9

RULES OF ORIGIN

1. The Parties shall apply to imports covered by this Agreement, a regime of rules of origin which is designed to strengthen their mutual trade flows.

2. The determination of the origin of goods during the first three years of the implementation of the Agreement shall be in accordance with the provisions set out in Annex IV to this Agreement. The Joint Council will, at the beginning of the second year, commence the review of those provisions in order to establish those which will apply from the beginning of the fourth year.
3. The certification and verification procedures shall be in accordance with those established in Annex IV to this Agreement.
4. Rules of origin will be determined based on the general principle of change of customs classification heading, whenever this involves a substantial transformation process. The establishment of specific requirements by product may be necessary.
5. The origin regime shall include the concept of cumulative origin to favour production linkages among the Parties.
6. The Rules of Origin will be adjusted in the light of technological change, as well as changes in the production structure of the Parties.
7. A review mechanism is established in Annex IV.

ARTICLE 10

TECHNICAL STANDARDS

The Joint Council shall review the technical, industrial, commercial and public health standards, as well as sanitary and phytosanitary measures of the Parties and shall recommend the actions which it considers appropriate to ensure that these standards and measures do not constitute obstacles to trade between the Parties.

ARTICLE 11

GENERAL EXCEPTIONS

This Agreement allows the adoption or enforcement by Colombia or by any Member State of CARICOM of the following measures, provided they are not used as obstacles to trade

- (a) those required to protect public morale
- (b) laws and regulations necessary for security purposes and for the prevention of disorder or crime;

- (c) those needed to ensure compliance with laws and regulations related to customs control, or pertaining to the classification, grading or marketing of goods, or for the operation of monopolies by state enterprises or enterprises legally granted exclusive or special privileges;
- (d) those required to protect intellectual property rights;
- (e) those relating to gold or silver production or trade;
- (f) those relating to products from prison labour;
- (g) those aimed at the protection of national treasures of artistic, historical or archaeological value;
- (h) those required to prevent or alleviate critical shortages of foodstuffs in any of the exporting Parties; or
- (i) those relating to the conservation of non-renewable natural resources.

ARTICLE 12

TRADE PROMOTION

The Parties agree to establish trade promotion programmes to facilitate the activities of official and private trade missions, the organisation of fairs and exhibitions, the continuous exchange of information, market studies and other activities leading to the optimal utilisation of the preferences of the liberalisation programme, and the opportunities offered by the trade measures agreed on.

ARTICLE 13

TRADE FINANCING

1. The Joint Council will periodically review trade financing between the Member States of CARICOM and Colombia and recommend those mechanisms which may be implemented to facilitate this.
2. The Parties recognise the importance of timely payments for the development of trade and undertake to ensure that neither Colombia nor any Member State of CARICOM will establish undue impediments to the prompt payment for goods traded pursuant to this Agreement.

ARTICLE 14

TRADE PROMOTION

1. The Parties recognise the importance of trade in services for the development of their economies.
2. The Parties further recognise that it will be opportune and necessary to develop cooperation in this sector based on the results of the Uruguay Round of the GATT. To this end, the Parties will negotiate amendments or further expansion of this Agreement.

ARTICLE 15

TRANSPORTATION

1. The Parties recognise the importance of improving transportation services as a means to facilitate trade between the Member States of CARICOM and Colombia.
2. The Joint council shall identify the measures that contribute to improved transportation services, including the negotiation of air and maritime transport agreements between Colombia and the Member States of CARICOM.
3. The Parties further undertake to explore the possibility of creating joint enterprises in the area of transport and to promote the establishment of warehouses for the consolidation of freight.

ARTICLE 16

SAFEGUARD CLAUSES

1. The Member States of CARICOM and Colombia may apply bilateral safeguard measures of a temporary nature when:
 - (a) imports of products from any Member State of CARICOM or Colombia are made in such quantities that such products cause or may cause damage to the national production of like or directly competitive products of the importing country;
 - (b) it is necessary to redress balance-of-payment deficits or to protect the external financial position of the importing country.

2. Safeguard measures shall consist of the temporary suspension of the tariff preferences and the reinstatement of the Host Favoured Nation duties for the specific product.

3. Safeguard measures shall be applied for an initial period of no longer than one year. This term may be renewed for an additional year, if the causes that motivated the imposition of the safeguard clause persist.

4. The importing country seeking to impose or renew any safeguard measure shall request a meeting of the Joint Council in order to have consultations on the imposition or renewal of such measures. This imposition or renewal does not require consensus.

ARTICLE 17

UNFAIR TRADE PRACTICES

In cases where situations of dumping, as well as distortions from the application of export subsidies or from domestic subsidies equivalent in nature arise in the trade between the Parties, the affected Party may apply the appropriate measures in conformity with its domestic legislation, if it exists, which in any case, shall be in conformity with the provisions of the GATT.

CHAPTER III

ARTICLE 18

ECONOMIC COOPERATION

1. The Parties agree to encourage investments by their nationals in each other's territory through, inter alia, the consideration of eventual negotiations of Bilateral Treaties on the Promotion and Reciprocal Protection of Investments, investment promotion activities and the exchange of information on investment opportunities. To this end, similar agreements between individual Member States of CARICOM and Colombia will be encouraged.

2. The Parties agree to encourage joint production of goods and collaboration in the provision of services, especially those aiming to take advantage of market opportunities in third countries.

ARTICLE 19

TECHNICAL COOPERATION

1. The Parties agree to encourage and promote cooperation in areas such as human resource development, institution building, science and technology, research and development, environmental management, disaster preparedness and management, health research and management, energy, tourism and agricultural development.
2. Technical cooperation shall be implemented through the conclusion of agreements which will elaborate the modalities for dealing with, inter alia, exchanges among universities, training and research institutions, the provision of experts, the granting of training awards, graduate studies, strengthening of information systems and participation in seminars and workshops.

CHAPTER IV

ARTICLE 20

PRIVATE SECTOR ACTIVITIES

The Parties agree to promote the active participation of the private sector in the fulfilment of the objectives of this Agreement. To that end, they will consider the possibility of establishing a Colombia-Caribbean Business Council to analyse trade and investment opportunities, supply business information and organise business exchanges.

ARTICLE 21

SETTLEMENT OF DISPUTES

1. Any dispute which may arise between the Parties concerning the interpretation, application, execution or breach of the provisions of this Agreement may, if the dispute is not resolved by the Parties, be referred by either Party to the Joint Council for its consideration and recommendations.
2. In the exercise of its powers under this Article, the Joint council shall define guidelines and mechanisms for the settlement of disputes within six (6) months after the entry into force of this Agreement. Such mechanisms may be negotiation, mediation, conciliation and the formulation of recommendations by groups of experts.

3. The recommendations of the Joint Council or any group of experts nominated by the Joint Council with respect to the settlement of disputes shall not be binding.

ARTICLE 22

EVALUATION OF THE AGREEMENT

The Joint Council shall periodically undertake an evaluation of the implementation of this Agreement and the achievement of its objectives. On the basis of such evaluation, the Joint Council shall recommend the measures it considers necessary to improve trade and economic relations and technical cooperation between the Parties.

ARTICLE 23

ADHERENCE TO THE AGREEMENT BY OTHER ALADI MEMBER STATES AND THE BAHAMAS

1. In order to facilitate the convergence of this Agreement with other integration schemes of the Latin American countries, it remains open to the adherence of other ALADI Member Countries, subject to prior negotiations between the Parties and those countries which demonstrate their intention to become members, in accordance with the provisions of paragraphs (a) and (b) of Article 9 of the Treaty of Montevideo 1980.

2. This Agreement shall not apply to The Bahamas, unless it adheres thereto subject to prior negotiations between the Parties and The Bahamas.

ARTICLE 24

ANNEXES

The Annexes to this Agreement are an integral part thereof.

ARTICLE 25

TERMINATION

1. Any Party may terminate this Agreement, through written communication of its decision to the other Party. Termination shall take effect six (6) months after such notice is received by the other Party. In that event, Colombia shall inform the General Secretariat of ALADI.

2. All rights and obligations acquired by virtue of this Agreement shall automatically cease, on the effective date of termination, except with regard to those obligations pertaining to the importation of products which shall be in force for a further period of one (1) year unless the Parties agree to a longer period.

ARTICLE 26

ENTRY INTO FORCE

This Agreement shall enter into force when the Parties have notified each other that all internal legal procedures have been completed.

ARTICLE 27

DURATION

This Agreement shall be of indefinite duration.

CHAPTER 28

AMENDMENTS

Any addition, amendment or modification of this Agreement shall be done through Protocols to this Agreement.

ARTICLE 29

TRANSITIONAL MEASURES

ANNEX IV

RULES OF ORIGIN

Article 1

The determination of origin of the merchandises and its corresponding certification procedures and verification shall conform to this Annex.

Article 2

The Rules of Origin in this Annex are based on the general principle of the change of customs classification heading. To that end, the Parties will utilise the Nomenclature of the Harmonised Commodity Description and Coding System, including the headings and sub-headings and the corresponding numerical codes, the notes to the Sections, Chapters and sub-headings, as well as the General Rules of Interpretation.

Article 3

The following shall be considered as originating in the Parties -

- (a) The materials or products from the mineral, plant and animal kingdoms (including those from hunting and fishing), extracted, harvested or gathered, born and bred in the territories of the Parties, or in their territorial waters and in their exclusive economic zones;
- (b) Materials or products of the sea extracted beyond the territorial waters of the Parties and their exclusive economic zones by ships of national flag legally registered or leased by enterprises established within their territories;
- (c) The slag, ashes, residues, waste or scrap, gathered or obtained from manufacturing and processing operations performed in the territory of the Parties, fit only for the recovery of raw materials, as long as they do not constitute toxic or hazardous wastes in accordance with national and international Law on the matter;
- (d) Goods produced in the territory of the Parties which are made solely from originating materials or products;

- (e) Goods produced within the territories of the Parties, which incorporate materials or products from third countries; and -
 - (i) the goods produced are classified in a customs classification heading which is different from those in which all the materials or products from third countries used in its manufacture are classified; or
 - (ii) the c.i.f value of materials or products from third countries utilised does not exceed 60 per cent of the f.o.b. price of the goods produced or the regional content shall be no less than 40 per cent of the f.o.b price of the goods produced; or
 - (iii) a specific origin requirement for individual products as determined by the Joint Council according to Article 2 of this Agreement.

The specific origin requirements shall prevail over the general criteria in this Article.

Article 4

The determination of the transaction value of the goods produced and the transaction value of the non-originating materials or products shall be according to the Code on Customs Valuation of GATT. In the case of the transaction value of the goods produced, this shall be on an f.o.b basis. In the case of the transaction value of the non-originating materials or products, this shall be on a c.i.f. basis.

To calculate the percentage of regional content, the value of the non-originating materials or products utilised in the production of the goods shall be subtracted from the transaction value of the goods produced, this difference being divided by the transaction value of the goods produced -

$$RC = [(TV - MNV) / TV] \times 100$$

where

RC = Regional content

TV = Transaction value of the goods produced

MNV = Transaction value of non-originating materials or products.

Article 5 : Definitions

For the purposes of this Annex, the following definitions shall apply: “Materials” or “Products” means the raw materials, intermediate goods and parts utilised in the production of goods.

“Production” means planting, extraction, harvesting, fishing, hunting, manufacturing, processing or assembly of goods.

Article 6

For the purposes of determining origin, the goods produced from materials or products originating in another Party shall be considered as originating from the territory of a Party whenever those materials or products meet the rules of origin established in this Annex.

Article 7

The following will not be considered as processes of substantial transformation, whether or not an origin requirement has been complied with -

- (a) operations to ensure the preservation of goods during transportation or storage, such as ventilation, refrigeration, freezing, addition of preservatives, removal of damaged parts and the like;
- (b) operations such as dust removal, sifting, shelling, winnowing, maceration, drying, sorting, classification, selection, crushing, washing painting and cutting-up;
- (c) the simple formation of sets of products;
- (d) simple packing, placing in containers or repackaging;
- (e) the simple dividing up or assembly of packages;
- (f) the affixing of brands, labels, or other similar distinctive signs;
- (g) simple mixture of materials if the characteristics of the product obtained are not essentially different from the characteristics of the materials which have been mixed;
- (h) The simple gathering or assembly of non-originating parts;
- (i) The slaughter of animals;

- (j) The simple dilution in water or in other substances which do not alter the essential characteristics of the goods;
- (k) the carrying out of two or more of these operations.

ARTICLE 8

In order for the goods to benefit from the preferential treatment, the same must be directly delivered from the exporting country to the importing country.

For these purposes, the following shall be considered as direct consignment:

- (a) Products transported without going through third countries;
- (b) Products transported in transit through one or more non-participating countries with or without transshipment or temporary storage under the surveillance of customs authorities of such countries provided that -
 - (i) the transit is justified by geographical reasons or by considerations related to transport requirements;
 - (ii) they are not designed for trade or use in the transit country; and
 - (iii) they do not undergo during transportation or storage, any operation - other than loading or unloading or operations to keep them in good condition and ensure their conservation.

Article 9

In order for the products to benefit from the preferential treatment provided for under this Agreement, the exporter shall include in the export documentation a declaration certifying the fulfilment of the origin requirements set down in this Annex, in the format set down in the Appendix to this Annex.

Such declaration may be issued by the final producer or by the exporter of the goods concerned in the format set down in the Appendix to this Annex, and must in any case be certified by an official body.

The Certificate of Origin shall be valid for a period of 180 days from the date of issue.

Article 10

Each Party shall require the exporter or producer who completes and signs a certificate of origin to keep all the records and documents pertaining to the origin of the goods, in accordance with national legislation, for a minimum of two (2) years from the date of the certificate.

Article 11

The competent authority of each Party may request the official bodies authorised by the other Parties to issue certificates of origin to carry out control of this document when -

- (a) there are grounds for doubts regarding the authenticity of the document;
- (b) there are grounds for doubts in regard to the accuracy of the data contained therein;
- (c) for random checks.

The competent authority of the exporting country shall supply the information requested within forty-five (45) days.

Article 12

In no case shall the Customs authorities of the Parties interrupt an import procedure of the products covered by the certificates of origin mentioned in preceding Articles. However, the Customs authorities of the importing Party, in addition to requesting the appropriate additional information from the competent authorities of the exporting Party, shall adopt the actions they deem necessary to safeguard the fiscal interests.

Article 13

The functions and obligations of the official bodies authorised by the Parties to carry out origin certification will be, inter alia,

- (a) to verify the accuracy of the declaration presented to them by the producer or the exporter by way of systems or procedures which ensure the accuracy of the data;
- (b) to provide to the other Parties the administrative cooperation required for the control of documentary proof of origin.

The official bodies authorised by the Parties will no later than sixty (60) days after entry into force of the Agreement transmit through their respective Foreign Ministries to the Foreign Ministries of the other Parties the approved list of the official bodies authorised to issue the certificates mentioned in this Annex, along with a list of signatures, facsimiles of the authorised signatures and the stamps of the official bodies authorised.

Any changes to such listings shall enter into force thirty (30) days after receipt of notification.

Article 14

The Joint Council shall review the rules of origin at least once every twelve (12) months or at the request of one of the Parties, and it may modify them,

The Joint Council may also establish specific origin requirements for any product.

ARTICLE 4 The following shall be considered as originating goods or products in the Parties:

Nomenclature of the Harmonised Commodity Description and Coding System, which is different from those in which all the non-originating inputs used in the process are classified; or

- ii) Goods, other than goods resulting from an assembly process, in which the CIF value of the non-originating inputs utilised does not exceed 50% of the FOB price of the goods produced or the regional content is not less than 50% of the FOB price of the goods produced.
 - iii) Goods resulting from an assembly process in which the CIF value of non-originating inputs utilised does not exceed 50% of the FOB price of the goods produced or the regional content is not less than 50% of the FOB price of the goods produced.

$$RC = (TV - MNV) / TV \times 100$$

where:

RC= Regional Content
TV= Transaction value of the goods produced
MNV= Transaction value of non-originating inputs.

ARTICLE 6 For the purposes of determining origin, where an input qualifies as originating goods in one Party and that input is utilised in production in the other Party, that input shall be considered as originating goods.
